DESIGN AND TECHNOLOGY
FROM A SINGLE SOURCE

**GEBERIT QUALITY FOR
THE ENTIRE BATHROOM**

Wall-hung toilets give bathrooms a neat and tidy appearance and make cleaning the floor easier. They have been a standard feature in modern bathrooms for decades and have proven their worth in millions of installations.

DESIGN

WALL-HUNG TOILET SOLUTIONS

VERY STRONG

No wobbling or vibrations - strength tested to bear a weight of up to 63 stone.

DURABLE

Installed 60 million times over the past 50 years, Geberit concealed flush plates represent the ultimate tried and tested solution.

HYGIENE: SIMPLE CLEANING

No pedestal and no cistern in front of the wall means no exposed pipework for dirt and bacteria to hide.

TESTED IMPERMEABILITY

Every Geberit cistern is individually tested to guarantee water tightness.

SIMPLE MAINTENANCE

Simply remove the flush plate for access to all important parts. Geberit stock spare parts for 25 years.

ACOUSTIC SOLUTIONS

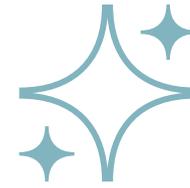

Acoustic solutions with the Duofix frame mean it's all quiet behind the scenes.

INNOVATIVE FLUSH TECHNOLOGY
Geberit Rimfree® toilets are equipped with a specially developed and patented flush guide which ensures a targeted and hygienic flush every time.

Rimfree®

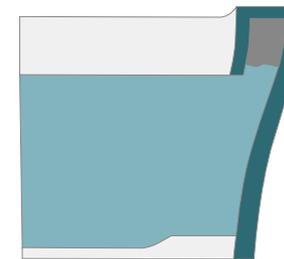

CLEANLINESS EASY TO CLEAN RIMFREE®

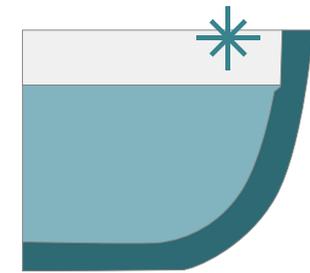

Keeping the bathroom spotless is a must, because cleanliness and hygiene are important, especially in the bathroom. Cleaning should not become a hassle where one has to deal with tricky corners and difficult to reach places. Most people would also rather avoid handling harsh cleaners. Modern bathrooms are neat and orderly so it comes as no surprise that this trend also applies to the toilets with the introduction of Rimfree®.

Geberit has introduced a completely new and patented flush technology. The flow of water is controlled just before it reaches the ceramic pan. A flush guide sends the water stream along both sides to the exact area where it is needed for a clean and thorough flush and only there.

www.geberit.co.uk

↑
Common toilet pans depend on a flush rim which cannot easily be cleaned. Dirt and bacteria accumulate in this difficult to reach place resulting in unpleasant odours.

↑
With the Geberit Rimfree® technology however, there is no rim. The smooth inner surface of a Geberit Rimfree® toilet pan is cleaned with one swipe. And best of all, you can immediately see if all dirt has been removed.

GEBERIT SELNOVA

With its classic lines, the Geberit Selnova bathroom series can be incorporated into any bathroom. Geberit has selected a simple and discreet design and brought the functionality to the fore. Geberit Selnova sets itself apart with its outstanding value for money, and the uncompromisingly high quality that has become synonymous with the Geberit brand. **Classically timeless, for every bathroom.**

Geberit Selnova offers a wide range of wall-hung and floor standing toilets.

GEBERIT SELNOVA WASHBASINS

HARMONIOUS BATHROOMS FOR ALL ROOM SIZES

The washbasins from the Geberit Selnova bathroom series are available in two different designs. Geberit Selnova has an evenly rounded basic form, inspired by organic and natural shapes. The design language of Geberit Selnova is characterised by a naturally soft geometry with gentle curves. What both designs have in common is the softly curving inner basin and a slim basin edge. Both can transform into a large tap hole bench to serve as storage space.

1 The soft curves of Geberit Selnova are adapted from nature. **2** Slim edge with a smooth transition to the storage space behind. **3** Washbasin solutions with a pedestal to conceal the trap.

SUITABLE TOILETS FOR EVERY CONSTRUCTION SITUATION

The toilet ceramic appliances from Geberit Selnova also feature classically soft curves. In order to offer modern solutions for every bathroom, they are available as wall-hung and floor standing models. With Geberit Rimfree® technology the toilet ceramic appliances are particularly easy to look after.

↑
The wide range of wall-hung and floor standing toilets with built in wall hung frames and concealed cisterns, means there is a solution for every bathroom.

GEBERIT SELNOVA COMFORT

The Geberit Selnova Comfort solutions enable older people and those with reduced mobility to retain their independence in the bathroom, without compromising on the quality of fittings. The products implement important functionalities in an appealing design. It is based on Geberit's many years of experience in the development and manufacture of solutions for **bathrooms that span generations.**

DESIGN

CLEANLINESS

ACCESSIBILITY

GEBERIT SELNOVA COMFORT

FOR STYLISH BATHROOM PLANNING THAT SPANS GENERATIONS

Geberit's experience in multi-generational bathrooms means we understand what product is suitable for added comfort. This includes an extremely flat washbasin, offering ample legroom when a wheelchair is rolled underneath. Toilets with a wide projection of 70cm facilitate easy movement from the wheelchair, and a toilet seat secured against slipping.

↑
A washbasin that is wheelchair accessible makes personal washing and care easier.

↑
Toilet with extended projection for wheelchair access.

IN FRONT FOR BEHIND THE **WALL FRAME** TECHNOLOGY

In any environment, hygiene, flexibility and all-round usability are of paramount importance. With Geberit Duofix behind the wall frame technology, every eventuality has been considered. Having pipework and cisterns neatly concealed behind the wall not only saves space, but cleaning and maintenance time too. While the versatility of Geberit Duofix frames enables wall-hung toilets to be easily installed in a variety of situations including under a window, in narrow wall ducts or under a sloping ceiling.

- Frames in various heights, depths and functionalities
- Suitable for toilets, washbasins, urinals and Geberit electronic tap systems
- Geberit Duofix is tested to withstand 400kg of weight
- Easy installation with only four fixing points
- Pre-wall fixing brackets with adjustable 90° drainage bend included

GEBERIT GEO SHOWERING

SIMPLE AND FLEXIBLE SHOWERING SOLUTIONS FOR ANY SPACE

The bathroom should be a reflection of both practicality and style. The Geberit Geo series provides a core range of framed shower enclosure products which deliver clear space saving solutions and outstanding value. **Our simple and flexible designs can offer a range of showering solutions for any space.**

GEO PIVOT DOOR

GEO SLIDING DOOR

GEO QUADRANT

GEO CORNER ENTRY

GEO BATH SCREEN

GEBERIT GEO SHOWERING

Excelling with its simple, stylish and practical design flexibility, Geo Showering offers quality and practicality in one enhanced solution.

PROFILE HANDLE DESIGN

Minimalistic profile handle design on all sliding partitions, providing easy cleaning and increased stability.

PROCLEAN GLASS COATING

Proclean glass coating creates surface tension, making the glass easier to clean and also reducing the build up of water marks, limescale and soap scum.

SPRING LOADED BUFFERS

Providing an enhanced cushioning effect for improved acoustics when opening and closing the shower door, as well as smoother action when using the shower enclosure.

ROLLER SYSTEM

Enhanced traction across the upper and lower profiles of the shower enclosure, delivering improved acoustic benefits and a smoother door glide.

REVERSIBILITY

Doors and panels can be reversed for both left hand and right hand applications.

GLASS THICKNESS

6mm glass thickness as standard across all enclosures with 8mm upgrade available on sliding doors
