

Hi there!

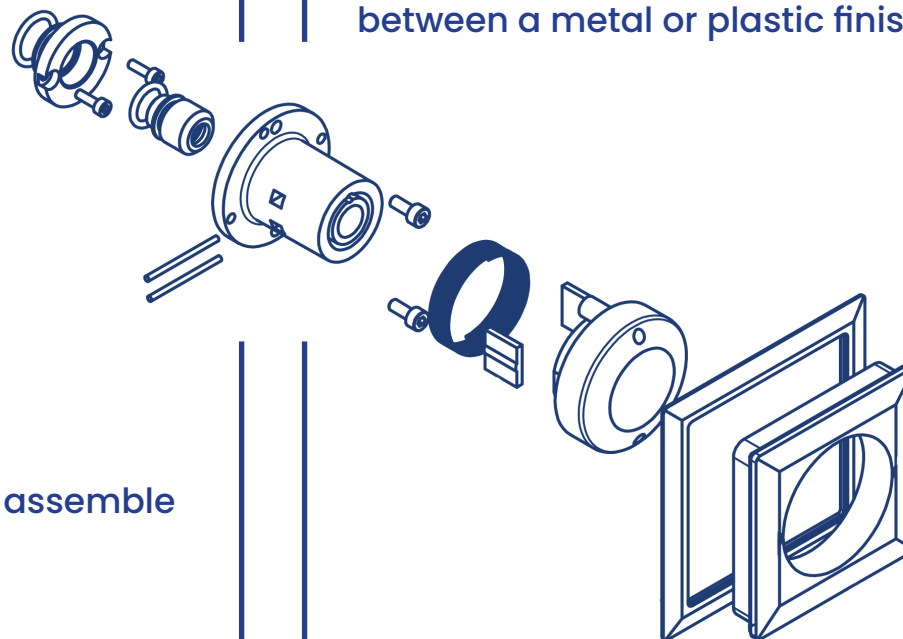

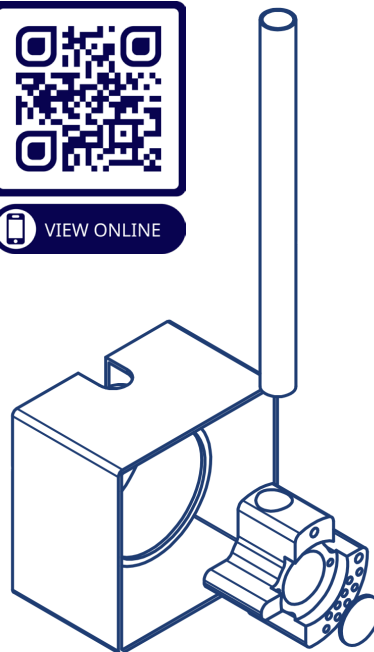

The PUK team are excited to announce a brand-new feature to one of our flagship products – The Medical Gas Outlet.

We've gone screwless... and you're probably thinking **"OK great, but what does that mean?"**

Well, we're going to take you through the key features to having our new-style Medical Gas Outlets...

 [VIEW ONLINE](#)

Key features

-  Quick and easy to assemble
-  Easy to clean
-  Sustainable
-  Cost effective
-  Manufactured in the UK

Why CPX?

CPX Gas Outlets can be retro-fitted to any branded first fix, allowing you ultimate versatility.

We design with the patient in mind, our medical gas outlets are MRI compatible, plastic fire retardant and are available in a variety of standards.

Depending on customer requirements you can choose between a metal or plastic finish.

We recently invested in some new tec!

- 01** Our brand-new laser engraving machine is designed to engrave complex codes that can be traced back to Precision UK.
- 02** The unique codes can then be scanned using a mobile device to determine its origin of manufacture.
- 03** Our unique codes mean that you can rest easy knowing your products are of genuine CPX origin and quality.
