## UK 2023/24 Lamp Market Bans

The lamps sector has undergone major changes in the last fifteen years, most of which have been driven by the move towards greater energy efficiencies and lower carbon emissions.

As part of the EU Restriction of Hazardous Substances (RoHS) directive. The fluorescent lamp ban aimed to reduce mercury use

in electrical or electronic equipment. Therefore, in September 2023 and February 2024, fluorescent lamps had been banned from production in the UK market.

The UK government states that this new legislation will enforce the significant change to more energy efficient and longer lasting LED lamps.

## UK 2023/24 Lamp Ban Timeline

September 2023	February 2024
T8 Fluorescent Tubes [2ft, 4ft & 5ft] 	Compact Fluorescent Lamps [CFL's] 
Mains Voltage Halogen Capsules [G4, GY6.35 G9 Cap] 	T5 Fluorescent Tubes [all lengths] 
	T8 Fluorescent Tubes [remaining lengths] 

## Upcoming UK 2025 Lamp Ban

**February 2025**

Compact Fluorescent Lamps [2D 28W/38W] 

It is important to note that suppliers are able to sell through existing stocks, also any banned products placed on the market before each enforcement date may also be sold.

# Banned Lamps Brochure

This brochure has been created to help highlight which lamps are due to be banned as some customers may wish to take this opportunity to "stock up" whilst they are still available or alternatively change to more energy efficient LED solutions whether that's a retrofit lamp or a new dedicated luminaire.

## Example:

<p><b>Banned Lamp</b></p> <p>CFL Double Compact Lamp</p> 	<p><b>LED Lamp Alternative</b></p> <p>G24 LED Retrofit</p> 	<p><b>LED Luminaire Alternative</b></p> <p>LED Commercial Downlight</p>
