UK 2023/24 Lamp Market Bans

The lamps sector has undergone major changes in the last fifteen years, most of which have been driven by the move towards greater energy efficiencies and lower carbon emissions.

As part of the EU Restriction of Hazardous Substances (RoHS) directive. The fluorescent lamp ban aimed to reduce mercury use in electrical or electronic equipment. Therefore, from September 2023 and February 2024, fluorescent lamps have also been banned from production in the UK market.

UK 2023/2024 Lamp Ban Timeline

SEPTEMBER 2023	FEBRUARY 2024
<p>T8 Fluorescent Tubes [2 ft, 4 ft & 5 ft]</p> 	<p>Compact Fluorescent Lamps [CFLs]</p> 
<p>Mains Voltage Halogen Capsules [G4, GY6.35 G9 Cap]</p> 	<p>T5 Fluorescent Tubes [all lengths]</p> 
	<p>T8 Fluorescent Tubes [remaining lengths]</p> 

UK 2025 Lamp Market Ban

As an additional part of the EU Restriction of Hazardous Substances (RoHS) directive to capture remaining lamps that contain mercury that fell out of scope of the February 2024 fluorescent lamp ban, the following lamps will be phased out:

FEBRUARY 2025
<p>Compact Fluorescent 2D Lamps [28W & 38W]</p> 

The UK government states that this new legislation will enforce the significant change to more energy efficient and longer lasting LED lamps. It is claimed this will stop 1.26 million tonnes of carbon being emitted annually and will save consumers an average of £75 each year on energy bills.

However, it is important to note that suppliers are able to sell through existing stocks, also any banned products placed on the market before each enforcement date may also be sold.

This brochure has been produced to help guide customers through products associated with the lamp ban, as well as LED retrofit and integrated LED luminaire alternatives.

Please Note:

All energy saving calculations are based on an electricity cost of £0.245 kWh.

Carbon emission calculations are based on the 2023 UK Government Emission Factor of 0.207kg / CO₂e / kWh of electricity produced.

Depending on which icons are present, this indicates what control gear changes are required for the retrofit LED lamps to operate.

EASY INSTALL

This icon indicates that the process to retrofit to this LED lamp is much easier as only the starter needs to be removed or replaced when operating on switch start control gear.

ADVANCED INSTALL

This icon indicates that the process to retrofit to this LED lamp is more complex as the bypassing of control gear is required.

Direct Retrofit
– no change required

NOTE: Fusion Lamps always recommends the bypassing of all control gear to increase efficiency. Wiring diagrams are available upon request.

Please Note:

All energy saving calculations are based on an electricity cost of £0.245 kWh.

Carbon emission calculations are based on the 2023 UK Government Emission Factor of 0.207kg / CO₂e / kWh of electricity produced.

LED Luminaire Alternatives

LED Tri-Colour Battens IP20

- Steel body with powder-coated finish
- Polycarbonate UV stabilised diffuser
- Quick-release access system
- Ideal retrofit option for existing T8 or T5 fixtures
- Integrated LED
- Colour temperature: Warm white 3000K, cool white 4000K and daylight 6500K
- Lamp life: 50,000 hrs
- Dimensions: 72 mm[W] x 72.5 mm[D]
- Mounted: Surface or suspended
- Guarantee: 5 Years
[on-site guarantee: 1 year]
[emergency guarantee: 2 years]

Microwave features:

- Detection angle [ceiling]: 360°
[wall]: 150°
- Detection range: 10 m
- Timer adjustment: 5 secs, 30 secs, 90 secs, 5 mins, 20 mins or 30 mins

Includes:

- Safety cords to LED tray

Free lighting design service

Exclusive lighting design service for CEF customers from Fusion Luminaires

Our **FREE** lighting design services include

✓ **Plans**

- An overview of products required for the project
- Representational floor plan
- A quick reference point for placements

✓ **Results Overview**

- Illumination levels and products required for individual rooms

✓ **Numerical Results**

- Numerical LUX level results

✓ **Optional 3D Rendered Images**

- 3D visual representation of post project install

✓ **Full Product Specification**

- Detailed specification of products used for the project

✓ **Optional Energy Saving Report Calculator**

- Energy saving report to showcase usage and monetary savings

95% of lighting designs completed within 3 days

SURFACE MOUNTED

By using the bracket, screws and wall plugs, the fitting can be surface mounted.

RECESS MOUNTED

The spring-clips are adjustable, which allows it to be used in cut-out sizes from 55 to 250 mm depending on the luminaire wattage.

MAGNETIC BEZELS

The Flexi-Fit bezel is white as standard. Additional magnetic bezels are sold separately, allowing the option to tailor the fitting to preferred aesthetics.
