

Healthcare Estates®

Conference. Exhibition. Awards.

2025 - ORGANISERS' STATEMENT OF ATTENDANCE

Healthcare Estates is the flagship annual event of the Institute of Healthcare Engineering and Estate Management (IHEEM) and is the UK's largest event for those who fund, design, build, manage and maintain the healthcare built environment.

With significant changes in how the NHS will be managed announced in the run-up to the event, and reports that the NHS maintenance backlog has risen to £13.8bn, Healthcare Estates once again acted as a valuable and timely meeting opportunity for the sector.

The event's over-arching theme of 'Prevention is Better Than Cure' created a framework for attendees to address the latest issues, discuss them with key leaders of the profession and consider how to move forward.

The importance of Healthcare Estates as a key destination for the sector to get key updates and discover the latest product and service innovations was reflected in an increase in attendance on the previous year, resulting in a new record attendance.

Overall attendance increased by 14% on the previous year, with combined delegate and visitor attendance increasing by 9%.
